## SUMMARY

---

As a fourth-semester Bachelor of Engineering student in Information Technology, I am deeply passionate about web development. With a focus on frontend design and development, I have honed my skills in HTML5, CSS3, Bootstrap, TailwindCSS, JavaScript, and ReactJS, including the Vite build tool. My ambition extends beyond frontend expertise, as I aspire to master full-stack development and deepen my understanding of data structures and algorithms. Eager to embrace new challenges and expand my knowledge base, I am committed to continuous learning and growth in the dynamic field of web development.

## WORK EXPERIENCE

---

### Front-end Developer intern at Prodigy infotech

March 2024 – April 2024

As an intern at Prodigy Infotech, I actively contributed to developing responsive and user-friendly frontends using a combination of HTML5, CSS3, and JavaScript. My responsibilities included completing five beginner-level projects as assigned tasks. Through this experience, I gained valuable hands-on experience in web development and enhanced my proficiency in front-end technologies.

### Front-end intern at Codsoft

April 2024

During my internship at Codsoft, I played a pivotal role in designing and developing front-end layouts using HTML, CSS, and JavaScript. I focused on creating visually appealing and functional user interfaces, adhering to responsive design principles. I gained practical experience in implementing project requirements and troubleshooting issues. This internship provided me with valuable insights into front-end development practices and strengthened my skills in building intuitive web interfaces.

## PROJECTS

---

- **Personal Portfolio**

My personal portfolio website is a responsive and user-friendly showcase of my work, skillfully designed and developed using HTML, CSS, and JavaScript. With sleek stylings and cool animations, it captivates visitors on any device, providing an engaging experience while highlighting my projects and expertise.
